30th March 2020

Dear Colleague,

You may be aware that the government are now allowing unused annual leave to be carried over for up to two years.

This is really good news, especially for those of you who might not be able to take your full entitlement in this leave year because of the impact COVID-19.

As you already know, we decided not to cancel booked annual leave but we do thank anyone who has offered to cancel their own annual leave to help their teams and the people we support during this very challenging time.

The step we did take was to stop taking any bookings for annual leave, this was our initial reaction to the situation to safeguard the organisation, staff members and the people we support but I'm glad to say it's not something that we need to continue so as of today we are now open to taking annual leave bookings again via annualleave@premiercareplymouth.co.uk

Please bear in mind that the normal annual leave booking procedure applies i.e. booking a month in advance, taking a maximum of 10 days, one person from each team at a time.

We'd also like to take this opportunity to thank you for all of your support during what is, without a doubt, the most difficult time in the history of social care. Right now it feels that words are not enough and we want you to know that we have a huge amount of admiration for everything you continue to do for the people you support, your colleagues and for Premier Care.

Premier Care
(Plymouth) Limited

You can rest assured we are doing everything we can make sure the government understand that we are not simply 'unskilled' workers and are deserving of far more recognition, respect and compensation for the skilled support we provide to some of the most vulnerable and complex people in society.

Tracey & Martin
